## News

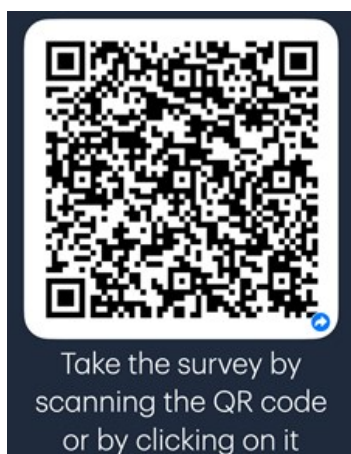

### Are you a regional ocean climate modeler ?

If so, your inputs would be greatly appreciated!

As part of the joint CLIVAR-OMDP and RfS-CORDEX [Task Force on Regional Ocean Climate Projections](#), we are assembling a **record inventory of regional ocean model projection simulations as both a resource for the regional ocean modeling community, to inform recommendations regarding community needs and priorities.**

We are collecting information for this inventory by way of **voluntary survey** with the intent of making **synthesized information** publicly available via the Task Force web page.

You're invited to take the survey using the QR code below or using directly this link <https://forms.office.com/e/18yxHGqWPZ> :

Please submit your response by **1 July 2025**.

The survey only takes **less than 10 minutes** to complete.

Please feel free to forward this survey to potentially interested colleagues and modeling programs.

#### Any question?

**Save the date for the  
Asia Climate Risk and Impact Strategic Workshop**

**SAVE THE DATE!**

**Asia Climate Risk and Impact Strategic Workshop**

- a special session at the 5th international Vietnam  
Conference on Earth and Environmental Sciences

Quy Nhon, Vietnam  
25-27 November 2025

This session stems from the wish to establish long-term collaboration on Science-Impacts-Society and Multi-scale Climate-Air-Water Nexus for Sustainable Health, Food, and Energy. Climate scientists and impact representatives/stakeholders from various sectors will discuss real information needs and explore a pilot project to develop tailored training for key groups (e.g., decision-makers, students, marginalized communities). The pilot project will highlight the value of cross-disciplinary collaboration and include components such as trust-building exercises and knowledge exchange.

Read more about the event at  
the [IVCEES2025 website](#)

CORDEX is involved in the organisation of the Asia Climate Risk and Impact Strategic Workshop that will be part of the 5th international Vietnam Conference on Earth and Environmental Sciences 2025 held in November in Quy Nhon. Keep your eyes open for more information and check out the conference website: [IVCEES2025](#)

## 46th Session of the WCRP Joint Scientific Committee (JSC-46)

In May the 46th session of the WCRP Joint Scientific Committee (JSC-46) was held at IOC-UNESCO headquarters in Paris. The WCRP Leadership Group as well as main sponsors and some external partners met to discuss what is going on, plans ahead and scientific developments in climate information.

Present from CORDEX were Silvina Solman, José Manuel Gutierrez and Irène Lake. Silvina Solman presented CORDEX achievements during the last year and also the challenges and future plans. You can find the CORDEX presentation, as part of the RIFS presentation, [here](#). The presentations from the other WCRP activities are also available at the [WCRP website](#).

These meetings are a good opportunity to interactive within the WCRP community and discuss possible collaborations.
