

Second Order Draft (SOD) of the new CORDEX-CMIP6 Archiving Specifications for dynamical downscaling open for comments!

The First Order Draft (FOD) of the CORDEX-CMIP6 Archiving Specifications for dynamical downscaling was shared with the CORDEX community in February 2023. We are very grateful to all who read the archiving specifications in detail and provided comments. The Second Order Draft (SOD) of the new CORDEX-CMIP6 Archiving Specifications for dynamical downscaling is ready and we share it with the CORDEX community for comments.

Please note that some parts of the specifications are still under development.

The CLIVAR-GEWEX Monsoons Panel is back with the second webinar in their series.

This webinar will explore the **Asian-Australian monsoon on Thursday 30 November.**

Check out the [Asian-Australian Monsoon page](#) for more information and registration link.

taking place on **28 November 2023, 15:00 - 16:30 CET**.

The series aims to advance knowledge of tipping elements, irreversibility, and abrupt changes in the Earth system, both in natural and social systems.

All information and the link to register are available [here](#)

The Call for Contributions is open for the **2024 Sustainability Research and Innovation Congress**, organized in collaboration with Sustainability Science Days (SRI/SSD2024). The Congress will be held in Helsinki and Espoo, Finland. The call for contributions also invites proposals for the Satellite Event in Africa.

Submissions are welcome from diverse groups of people working to accelerate sustainability transformations, including those from the research sector, government, business, and civil society.

Explore the [SRI/SSD2024 Themes and Contribution Types](#) and review the submission instructions to ensure that your proposal aligns with the focus of the Congress.
