

Polar CORDEX annual meeting

The annual Polar CORDEX meeting took place in Utrecht, Netherlands on 4-6 October. 25 researchers from Europe, North America and Asia participated in this hybrid meeting. The aim of the meeting was to have scientific exchange of Polar CORDEX and related groups on ongoing research including presentations and discussions.

Read about the discussions and the outcome here: [Polar CORDEX annual meeting](#)

Upcoming workshop in the CORDEX South East Asia domain

During 22-24 November 2023 the workshop *CARE for SEA megacities: Inception workshop and stakeholder consultation* will take place in Bangkok, Thailand and online.

The “Climatic hazard Assessment to enhance Resilience against climate Extremes for Southeast Asian megacities (CARE for SEA megacities)” project is the latest activity under the SEACLID / CORDEX South East Asia collaboration.

CARE for SEA collaborators and SEACLID/CORDEX SEA members are invited and encouraged to participate in this workshop and present their regional climate downscaling efforts.

It is still possible to register for online participation! Deadline is 15 November.

Read more and register here: [CORDEX SEA workshop](#)

WCRP Code of Conduct

WCRP embraces diversity, demands equality, and builds capacity for the future. In order to achieve this, we all should be able to work in a professional, respectful, and harassment-free environment.

The WCRP Code of Conduct was approved by the WCRP Joint Scientific Committee in July 2023 and applies to any activity organized by any WCRP group, panel, committee, and the WCRP Secretariat, including day-to-day business conducted by those groups, either in a face-to-face or virtual environment. It includes definitions of discrimination, harassment, and sexual harassment and outlines what should be done if there is a breach of the Code of Conduct.

Since CORDEX is a part of WCRP this applies to any activity organized within our domains and research groups. Please read and follow the [WCRP Code of Conduct](#).

New IPO directors
